

## **NET RESOURCE CENTER (NRC)**

The **Net Resource Center (NRC)** was established in 2011 under UGC XI plan. In the digital age, access to the internet is essential for academic growth, research, and communication. Net Resource Center (NRC) in our college serves as a dedicated facility that provides students and faculty with high-speed internet, digital resources, and IT support for academic and research activities. It plays a crucial role in enhancing learning experiences and enabling access to a vast pool of knowledge. The NRC is attached to the central Library since 2016 and students can access the center during the college hours at free of cost.

Since 2016, the NRC has been located within the central library, and students can utilize the center's facilities free of charge during college hours.

### **Purpose and Objectives**

The Net Resource Center was established with the following goals:

- To provide seamless internet connectivity for academic and research purposes.
- To offer access to online library resources (NLIST) and digital learning platforms.
- To support students and faculty with research, project work, and assignments.
- To conduct training sessions on digital literacy.
- To ensure cybersecurity and promote responsible internet usage within the college.

### **Facilities and Infrastructure**

A well-equipped Net Resource Center typically offers the following:

- High-speed broadband/Wi-Fi connectivity.
- Access to e-journals, e-books, and digital databases like NLIST.
- Printing and scanning services for academic use.

### **Activities and Services**

1. **Research Assistance** – Providing access to online research databases and offering support with academic writing and citations.
2. **E-Learning Support** – Enabling students to attend online lectures, MOOCs, and certification courses.

### **Management and Supervision**

The Net Resource Center is managed by:

- **Coordinator:** Dr. A. Anitha, Librarian
- **Member:** Dr. V. Vasanthi, Associate Professor of Computer Science
